4 – Cancellations, returns, refunds and complaints

*Consumer Rights Act 2015

For Distance (online & Mail Order) Selling:

Under the [Consumer Contracts Regulations 2015](#), a customer is allowed to return an item if they simply change their mind. A customer has the right to cancel at any time from the moment they place their online order, and up to 14 days from the day they receive the goods. The customer then has a further 14 days from the date they notify the retailer of their cancellation to return the goods. However, as per the Distance Selling Regulations, if an order has already been shipped and has left our possession, we will require the customer to pay the associated costs of returning the item to us before we will refund the purchase.

For our carriers to collect, the machine should be in a safe and easy to access ground floor location. Please also note if the collection fails due to the product being inaccessible, unable to fit through a door, or not in a safe location for collection (including upstairs rooms) the original collection fee will remain and a further payment would be required to re-attempt a collection.

If the product has been used, assembled, unboxed or the packaging has been opened there will be a fee payable/deducted from your refund to reflect the diminished value of the goods. This can equate to up to 15% of your machine's value.

For Faulty Goods:

Under the Consumer Rights Act 2015, a customer has an early [right to reject goods](#) that are unsatisfactory quality, unfit for purpose or not as described, and get a full refund. This right is limited to 30 days from the date the customer took ownership of the goods. If an item is faulty and needs to be returned, the customer does not need to pay postage costs for the return of the faulty item. If a customer is asked to return an item that arrived damaged, not as described or faulty, the retailer should refund the total cost of the return.

Information on current regulation can be found here

<https://www.which.co.uk/consumerrights//returns-and-refunds>

To file a dispute, you are also able to do this through ADR (Alternative Dispute Resolution) which helps resolve disputes about 'non-regulated' matters between consumers, non-micro businesses and retailers. You would need to be prepared to submit to an ADR procedure operated by this provider;

The European Commission provides for an online dispute resolution platform, which you can access here: <https://ec.europa.eu/consumers/odr/>. If you would like to bring a matter to our attention, please contact us.

In line with the Consumer Rights Act 2015, refunds may take up to 14 days to be received after we have confirmed receipt of the returned goods.

6 - WEEE Regulations and compliance

- You can now recycle your old electrical items with us

If you're buying a new electrical item, we will recycle your old one for free; you just need to pay the return carriage if you choose to use our carriers to collect the item from your house.

- Why recycle?

Unwanted electrical equipment is the UK's fastest growing type of waste.

Many electrical items can be repaired or recycled, saving natural resources and the environment. If you do not recycle, electrical equipment will end up in landfill where hazardous substances will leak out and cause soil and water contamination - harming wildlife and also human health.

- We can help

We are pleased to offer our customers the chance to recycle their old electrical items.

We can arrange a like-for-like collection of your old product with our nominated carriers when you purchase a new product from us. Please call our sales dept on 01924 964150 within 48 hours of placing your order to arrange collection with us through our nominated carriers.

Please note returning a product with our carriers will require a quote from our carriers for collection. For our carriers to collect, the machine should be in a safe and easy to access downstairs location and dis-assembled so that it can easily fit through any exit to your property.

Please also note if the collection fails due to the product being inaccessible, fully built and unable to fit through a door, or not in a safe location for collection (including upstairs rooms), the original collection fee will remain and a further payment would be required to re-attempt a collection.

You may also return the machine to us by your own carrier at your own cost within 28 days of purchasing your new item. Please contact our sales team prior to arranging any shipment to discuss this further.

To remind you that old electrical equipment can be recycled, it is now marked with a crossed-out wheeled bin symbol. Please do not throw any electrical equipment (including those marked with the crossed out wheeled bin symbol) in your bin.

- What is WEEE?

The Waste Electrical or Electronic Equipment (WEEE) Directive requires countries to maximise separate collection and environmentally friendly processing of these items. In the UK, distributors (including retailers) must provide a system which allows all customers buying new electrical equipment the opportunity to recycle their old items free of charge. Those establishing their own take-back scheme must as a minimum offer all customers buying new electrical equipment free take back of their old electrical items on a like-for-like basis.

Find more information on WEEE recycling, and locate your local recycling centre, at recyclenow.com

When you use a web coupon you warrant to us that you are the duly authorised recipient of the web-coupon and that you are using it in good faith.

If you redeem, attempt to redeem or encourage the redemption of web coupons to obtain discounts to which you or a third party are not entitled you may be committing a civil or criminal offence.

We reserve the right to take any further action if deemed appropriate, in such instances.
